

MOUNTAIN

C L A S S R O O M

If we can't bring Nature into School, then we should take School to Nature.

Mountain Classroom is an academically promising program that complement your classroom lessons and annual academic goals through experiential learning, it empower your conventional learning process through using the power of environment.

Mountain classroom is an add on school classroom with full of fun with nature and surrounding biodiversity, it helps you to learn Maths, Science, Social Studies, English, Music, Performing Arts, Life skills and other subjects with a new rewarding way.

Class: V–XII

Location: Nearest Mountain to School

Cost per Student: Rs. 1000/- per day (include local traditional food, sharing home stay with villagers)

Every participating student will receive a Green Internship Certificate and subject wise learning credits which will be included in his or her Annual School Report Card.

Our holistic learning session engages Student's body, mind, soul and spirit with the most spectacular natural areas for an incomparable educational experience that develop Self-confidence, Self-esteem, Leadership, Team building skills and other developmental goals. The inspiring natural world and experiential methods of learning helps students to achieve their academic goals through active learning.

This residential experience challenges and unites students in spectacular ways and allows them to use thematic learning to achieve their different learning goals throughout the day: from meal time to field time to bed time. Multi-day, field-based programs allow students to explore topics and find personal growth in a new learning environment.

KEY FEATURES

- Strengthen intra- and inter-personal skills through group and individual challenges.
- Field-based programs allow students to explore topics and find personal growth in a new learning environment.
- This environment permits students and teachers to be free of the stresses of daily school life and to view each other in a constructive new light.
- Develop an appreciation for the natural environment through exposure to spectacular beautiful areas.
- Improve environmental literacy through increased understanding of ecological concepts and balanced exposure to environmental issues.
- Develop leadership skills using leadership theory and practice that can be transferred to other life endeavours.

BENEFITS

- Increase in self-esteem and self-confidence.
- Improvement in teamwork.
- Enhancement in spirit of adventure
- Enrichment in personality
- Improvement in annual academic result
- Increase in coping ability and stress.
- Engages more in the co-curricular activities
- Improvement in classroom discipline.
- Healthier and happier than before participating in the Mountain classroom.
- Improvement in social behaviour, even Students with ADD/ADHD also exhibit less symptoms during and after attending Mountain classroom.
